- Undertake meaningful projects with supervision and support from executives and senior management staff in preparation for a professional career.
- Expand knowledge and understanding of the health care industry and related public policy issues.
- Receive real-world experience through networking with and learning from experienced professionals

## projects

Students interested in 2006 internships should possess skills or interest in one or more of the following project areas:

- Health Policy and Research
- Provider Network Development
- Program Analysis and Budgeting
- Financial Modeling
- Health Care Planning

*Examples of projects previously completed by interns include:*

- Research of virtual office/telecommuting models and cost analysis research
- Analyses of premium assistance programs in other states
- Creating a methodology for analyzing health service gaps
- Identifying and evaluating opportunities for health network expansion
